1. Qiaofeng Wang, he submitted the source code.
2. Not very often. A little bit more is fine. Cause then I can get more practice.
3. Good, of course.
4. The performance difference is minor, but Java List is more flexible so the program development time for Java List maybe a little bit sorter.
5. N^2, by using comparator in a loop of N.
6.
7.
8. More than 5 hours
